ZAHTEVI ZA USLUGAMA / REQUEST FOR SERVICES

Posebni zahtjevi Special Requests	
--------------------------------------	--

Aeroklub Zagreb nije dužan odobriti sve najavljene operacije!

Za dolazak/odlazak zrakoplova s/na aerodrom Lučko operatori zrakoplova koji nisu trajno bazirani na aerodromu Lučko obvezno moraju dolazak/odlazak zrakoplova unutar radnog vremena najaviti operatoru aerodroma minimalno 2 sata prije planirane operacije.

Operatori zrakoplova koji su trajno bazirani na aerodromu Lučko ne moraju najavljivati dolaske/odlaske tijekom radnog vremena operatora aerodroma.

Za dolaske/odlaske izvan radnog vremena operatora aerodroma, svi operatori zrakoplova moraju od operatora aerodroma ishoditi odobrenje najkasnije 24 sata prije planirane operacije.

Odobrenje za izvođenje najavljenih operacija ovisi o stanju manevarskih površina i/ili drugih čimbenika na aerodromu i bit će izdano samo ako su ispunjeni svi propisani minimalni uvjeti za sigurnu uporabu aerodroma Lučko.

Operator aerodroma ne osigurava carinsku i graničnu kontrolu, zato zrakoplovi koji dolaze iz inozemstva ne mogu dobiti odobrenje za uporabu aerodroma Lučko bez prethodno obavljene kontrole putovnica i carinskog pregleda na jednom od aerodroma unutar Republike Hrvatske koji pruža te usluge.

Letovi koji su izuzeti iz ovog zahtjeva:

- Letovi potrage i spašavanja, medicinski letovi, policijski letovi, letovi Hrvatske vojske
- Letovi koji su preusmjereni na Lučko zbog sigurnosti, hitnog medicinskog ili tehničkog slučaja

Aeroklub Zagreb is not obliged to approve all announced flights!

For the arrival/departure of aircraft from/to the aerodrome Lučko, aircraft operators that are not permanently based on the aerodrome must announce the planned operations to the Duty Officer at least 2 hours beforehand within working hours.

Aircraft operators permanently based on aerodrome Lučko are not required to announce arrivals/departures during working hours of the aerodrome Duty Officer.

For departures/arrivals outside working hours of Duty Officer, all aircraft operators must request a permit at least 24 hours prior to the planned operation.

Permission to perform all announced operations depends on the condition of the manoeuvring area and/or other factors on the aerodrome and will be issued only if all the minimum approved conditions for safe use of Lučko aerodrome are met.

The aerodrome Operator does not provide customs and border control. For that reason aircraft arriving from abroad can not get permission to use Lučko aerodrome without prior passport and customs checks made on one of the airports in Croatia which offers those services.

Flight operations exempted from PPR:

- *Search and rescue flights, medical flights, police flight operations, Croatian military flights*
- *Flights diverting to Lučko for safety, weather, and urgent medical or technical reasons*
